Dear Ed,

I've just enough time before I take the afternoon off for a baseball game on TV to thank you for much I've not taken time to thank you for so I could continue to get much on paper. I've just finish^{ed} the Introduction for what is tentatively titled Whoring with History: Gerald Posner ^cProtests the King Assassins. I'll let it cool overnight in the hope I'll confabulate less in reading and correcting it. But the rest is being retyped, all but this, the foreword and the conclusions.

Glad to read what it carried. Never heard of it. I went into that and much more.

Hersh was more slackjawed with some Canadian reporters and I was able to use some of that effectively. Too bad there is no likelihood of commercial publication. He ^{actually} told one of them Kennedy deserved being killed.

And of course I've kept all of that and have it filed away with the manuscripts for whatever future interest there may be.

There is no likelihood of any commercial interest in what I've done to and with Posner but what was in Case Open is slight compared with this.

So, belatedly for some, many thanks. It is helpful and welcome.

Best,

Hal
